SKILLS

- **Languages:** Java, C++, C, Python, SQL
- **Core Subjects:** Data Structures & Algorithms, Object-Oriented Programming, DBMS
- **Tools/Platforms:** Git & GitHub, VS Code, Tableau, Eclipse, IntelliJ IDEA, Blender, Unity
- **Soft Skills:** Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

- **COVID-19 Data Analysis & Visualization** | [Covid-19-impact](#) Apr 2025
 - Created visualizations including line charts, pie charts, and area charts using Pandas and Matplotlib.
 - Processed healthcare datasets to identify hospitalization and death-rate patterns.
 - Improved data interpretation and analytical reporting skills through real-world datasets.
 - Tech Stacks: Python, PyCharm
- **Sales & Profit Analytics Dashboard** | [Sales-profit](#) May 2025
 - Developed an interactive Excel dashboard to analyze sales & profit performance across categories and regions.
 - Performed data cleaning and KPI analysis for accurate business insights.
 - Created dynamic visualizations and reports to support data-driven decision-making.
 - Tech Stacks: Excel
- **Traffic Crash Analysis Dashboard** | [Traffic-Crash](#) Nov 2025
 - Analyzed 1M+ traffic crash records to identify high-risk zones and crash patterns.
 - Performed data cleaning, transformation, and validation using Power Query.
 - Generated insights on crash severity, weather impact, road conditions, and temporal trends.
 - Tech Stacks: Power-BI

TRAINING

- **Cipher Schools (Edtech Company)** | [Cipher Schools](#) Jun 2025 - Jul 2025
 - DSA using Java
 - Completed intensive training in Data Structures and Algorithms using Java.
 - Solved programming problems based on arrays, linked lists, trees, stacks, and queues.
 - Improved problem-solving and algorithmic thinking through hands-on coding practice.
 - Learned optimization techniques for time and space complexity.

CERTIFICATES

- Gen-AI, ChatGPT, LLM | [Infosys Springboard](#) Aug 2025
- Git & GitHub | [Cipher Schools](#) Jul 2025
- Micro Learning in DSA | [Board Infinity](#) Feb 2024

ACHIEVEMENTS

- Solved 250+ problems on Leet Code with a focus on data structures and algorithms.
- Maintained a 100+ active days on LeetCode, strengthening problem-solving and algorithmic skills.
- Strengthened problem-solving skills in arrays, recursion, trees, and dynamic programming.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology
Computer Science and Engineering; CGPA: 6.83
Aug 2023- Present
- **Jeevani international School** Chirawa, Rajasthan
Intermediate
PCM; Percentage: 87%
Mar 2021 – May 2022
- **Jeevani international School** Chirawa, Rajasthan
Matriculation
Percentage: 86%
Mar 2019 – May 2020
